## PRODUCTS

# Iron-10

### Guaranteed Analysis:

Total Nitrogen (N) .....	5.00%
2.64%.....Ammoniacal Nitrogen	
0.51%.....Urea Nitrogen	
1.07% Water Soluble Nitrogen*	
0.78% Water Insoluble Nitrogen*	
Sulfur (S) .....	3.00%
Iron (Fe) .....	10.00%
Molybdenum (Mo).....	0.002%

**Derived from:** Humic shale, iron sucrate, ammonium sulfate, methylene urea(s), and molybdic oxide.

\*1.85% slowly available from methylenediurea

### **ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:**

11.75% Humic Acid derived from humic shale ore.

Safe for use around pets and children.

Contains No Sewer Sludge or animal waste/byproducts and can safely be used in vegetable gardens.

Available in: 25# bags, 50# bags,  
1-ton totes and bulk.

Iron-10 is an exceptional fertilizer blend that provides a combination of four nitrogen types, and iron producing both rapid green up and long-lasting color not found in traditional fertilizers. It provides an even, consistent, feeding for up to 16 weeks and avoids the "peaks and valleys" caused by other products. The slow-release nitrogen in Iron-10 is triggered by temperature and microbial activity in unison with plant demand, to provide highly efficient feeding. It also enriches your soil's microbiology, which helps to increase root growth and density and improve the overall vigor of the plant.

Iron -10 is specially designed for turf, and gives you a deep, rich color without a significant flush of growth. It contains the finest, non-staining source of iron available to maximize plant response. Additionally, the humic acid contained in Iron-10 may also aid in the uptake of micronutrients.

For professional & homeowner use.

Safe for use on all turf, flower gardens, and ornamentals.

Apply Only as Directed

Turf:

- Apply 10-15 lb per 1,000 sq. ft.
- Water in after application.
- Product may take several irrigation cycles to completely dissolve, use accordingly on non-aerified putting surfaces.
- Apply quarterly or as needed.

Gardens and New Turf Construction:

30 lbs per 1,000 sq. ft., till into soil prior to planting.

Crops: Per soil analysis or as recommended by an agronomist.

Trees & Shrubs :

- Apply 10-15 lb per 1,000 sq. ft.
- Water in after application.
- Apply 3 times per year or as needed.
